## **Good News! We are now a 501(c3) Projects Update**

Himalayan Mission is proud to announce that we are now an official public charity with tax-exempt status under Section 501(c)(3) of the United States Internal Revenue Code. That means your contributions are now fully tax deductible.

Now that we are a 501 (c)(3) nonprofit organization, we are seeking your help. Please visit our website ([www.himalayanmission.org](http://www.himalayanmission.org)) or our Facebook page ([www.facebook.com/Himalayan-Mission](http://www.facebook.com/Himalayan-Mission)) to get more information about us. Please pray and consider becoming a partner with us to help change spread the gospel to one of the areas of the world that needs it most! It is estimated that less than 1% of the population

of Chandigarh are Christian. That is one of the lowest in the world! Please consider helping us impact this region for Christ!

Currently we are in the process of expanding our ministry further and further into North India. One way we have been able to do that is through our slum child ministry. We take these children in, feed them, help them with their school work, and teach them the Gospel of Jesus Christ. The kids go home and tell their parents about the good thing happening here at Himalayan Mission, so they come by to see for themselves! We believe that a child's testimony is one of the most powerful ones that can be heard! If you feel called to help us in this ministry, or any of our other ministries, please contact us at the information below. We look forward to hearing from you.

## **A Word From Pastor DK Angami**

Why did the Himalayan Mission start in northern India? According to ([www.aryan-arrival-in-india.com](http://www.aryan-arrival-in-india.com)) around 1500 BC the Aryans came to northern India from Iran and southern Russia. They considered themselves as a high caste because of their skin color and considered the indigenous Dravidian as a low caste because of their darker skin. With this system created by Hinduism caste system conflicts began and gradually the Aryans moved the indigenous Dravidians to the south.

The gospel first reached southern India more than 2000 years ago by the Apostle Thomas. The result of this event is that a majority of Christian institutions and Christian resources have been located in the south and have stayed this way from generation to generation. Therefore, the important of reaching to Aryans the Himalayan Mission has started its work in northern India with a HOLISTIC approach.

This HOLISTIC approach includes providing local children free general education, Christian schooling and much needed social services to the community at large.

The challenge before Christians' around the world is that there needs to be an urgency to reach the unreached in India where 1/6th of world population is located (1.25 billion people). Mark 3:27. First tie up the strong man (India) before you enter into it for the fulfillment of great commission before it is too late.
