## ***Testimonies from the field***

Breaking from centuries of false religious practices can be hard to do, and it is something we deal with on a regular basis here in Northern India. A recent example is that of Mr. Kumar Singh and his wife. They were raised as Hindus, as many are in this region. Mrs. Singh recently started to attend our church services. During one of these services, she felt lead to receive baptism and dedicate her life to Jesus. When her husband found out what happened, he beat her and threatened to attack members of the church. The Holy Spirit worked on him, however, and one day he came to us confessing his sins. He prayed for him and now he and his wife are regular church attendees! Please pray for this couple as they now they are receiving pressure from their extended family revert to Hinduism. If God can work a miracle in Kumar Singh's heart, then surely he can do it again and lead the whole family to Jesus.

This is just a one story of the many people that Jesus has touched here in Northern India. If you haven't already, please prayerfully consider contacting us to see what you can do to help reach an area of the world that needs the love of Jesus.

## ***A Word From Pastor DK Angami***

We are living in a challenging era today. Every day Christian's around the world are being persecuted, tortured, imprisoned and executed. From the mass prison camps in North Korea to the targeted killings in Iraq, to the mobs raiding churches in India. Intolerance toward

Christianity is increasing everywhere. Many Christians and missionaries' lives are in constant fear every day. I am tempted from time to time whether it would be safer taking my family back home and serving there. But the Bible is the best decision maker for a Christian's journey, as persecution was there during Christ's time it will continue on. We should live for Jesus. In conclusion, "for to me, to live is Christ and to die is gain." Thanks for your partnership in the finishing task through the name of Jesus.

## ***Perseccion in Mohali***

Recently one of our staff members found themselves a target of violent persecution while spreading the gospel in a local Mohali slum colony. A large group of men gathered around him and started to verbally abuse him. The chased him out of the area warning him that the next time they see him, he will be killed. Despite these threats, he still courageously carries on his duties working everyday in that same slum, preaching the name of Jesus to all who would hear it. Please take a moment to pray for this man. Ask for Angels to shield him against anyone who wishes to do him any harm.
